Firestone Diamonds plc
("Firestone" or the "Company") (AIM: FDI)

Recovery of 134 carat gem-quality diamond

Firestone Diamonds plc, the AIM-quoted diamond mining company, is pleased to announce the recovery of its largest diamond to date, a 134 carat gem-quality light yellow diamond, from its Liqhobong Diamond Mine, located in Lesotho. The Board believes this recovery, the second of over a hundred carats since production commenced, reinforces the potential for large stones at Liqhobong as the Company continues early stage mining.

Background information on Firestone

Firestone is an international diamond mining company with operations focused on Lesotho. Firestone is currently in the process of commencing commercial production at the Liqhobong Diamond Mine. Liqhobong is owned 75% by Firestone and 25% by the Government of Lesotho.

Lesotho is emerging as one of Africa's significant new diamond producers, hosting Gem Diamonds' Letseng Mine, Firestone's Liqhobong Mine and Namakwa Diamonds' Kao Mine.
